

Product Datasheet

Polyclonal IgY from non-immunized chickens
SBP0501

For research use only

Description:	Purified complete chicken egg yolk antibody fraction.
Immunogen:	None
Form:	In PBS solution pH=7.4 supplied with 0.02% sodium azide (refer MSDS). Sterile filtered.
Concentration:	1 mg/mL (UV ₂₈₀)
Isotype:	IgY
Purification:	Affinity purification.
Purity:	≥95% pure for 1.5 µg tested and stained with Coomassie Brilliant Blue on 4-20% Bis-Tris polyacrylamide gel (see fig. 1).
Storage:	Store at 4°C short term. Longer term storage requires aliquoting and freezing at -20°C. Avoid freeze thaw cycles.
